

Election Day – Questions/Concerns

Greetings!

Tomorrow's weather for Election Day looks to be sunny and mild. Following the weather pattern that moved through Michigan over the weekend, DTE made polling place restoration a top priority. Even though the forecast looks great (especially for November), we continue to monitor the weather and will also be monitoring polling locations - as provided by the Secretary of State's Bureau of Elections - for outages in our service area.

Should you experience a power outage at a polling location or ballot counting location in your municipality, please report the outage via the DTE Energy app or by calling 800.477.4747.

Please also contact the appropriate Regional Manager for your community from the attached contact sheet/map and share the address of the outage. Our Regional Relations team will work to ensure the outage information is escalated for action.

Thank you for your work this week and let us know how we can assist.
