Distribution of Telecomm Fees Under PA 48 of 2002

The following are estimates of what cities and villages are expected to receive from distributions from the METRO Act, when it is fully implemented. The first distribution is scheduled for May 2003, but it will be for only a portion of the figures listed below, because the payment will be for only 5 months and on the basis of 2 cents per lineal foot, as opposed to 5 cents per foot for succeeding payments. Please note that the figures below are only estimates -- they were based on estimates from two or three state agencies last spring. Two figures are listed for each municipality because of the range in estimates of total revenue expected to be generated. Municipalities should be cautious in using anticipated revenue from the METRO Act for budgeting purposes until the Metro Authority is in place, better revenue estimates have been developed, and compliance with the fees aspect of the law has been fully and definitively achieved.
