

Ethics—Incompatible Public Offices

A public officer or public employee is prohibited from holding two or more incompatible offices at the same time. MCL 15.181(2)

Definition

Incompatible offices means public offices held by a public official which, when the official is performing the duties of any of the public offices held by the official, results in any of the following:

- one office is subordinate to another
- one office supervises another
- a breach of duty of public office

The Michigan Attorney General has issued numerous opinions regarding the applicability of the Incompatible Public Offices Act to various public positions. See attached *Plus*.

The Michigan Supreme Court has also issued rulings regarding the Act, including its most recent pronouncement in *Macomb County Prosecuting Attorney v Murphy*, 464 Mich 149 (2001). In that decision, the court held that incompatibility, under the third definition, i.e., a breach of duty of public office, occurs when the performance of the duties of one of the public offices “results in” a breach of duty. The court indicated that offices are not incompatible if a breach of duty may occur in the future or if a *potential* conflict exists. The court’s ruling may conflict with some of the attorney general’s prior opinions. The attorney general opinions listed on the attached *Plus* should be read in light of the *Macomb County* decision.

A city, village, township, or county having a population of less than 40,000 may, by council action, authorize a public officer or public employee to perform other additional services for the unit of government, with or without compensation. MCL 15.183(4)(c)
