Grading Rubric

michigan municipal league | community excellence award

Criteria	Poor - 1	Average - 2	Good - 3	Excellent - 4
Community Wealth Impact (Based on the categories they chose)	Project does not engage residents or does not have a clear community impact.	Project helps engage with residents, but is not clear that it will "impact" the community	Project shows the potential for long lasting impact	Project has a clear and decisive impact on the community. It engages residents and demonstrates a clear long-lasting impact
Replicability (How easy is this project for other communities to replicate?)	Confusing and difficult to replicate in another community	Project is "doable" in other communities, but other communities may need significant coaching to be able to understand and achieve impact	Project could be replicated in other communities, but may need some coaching to execute project in their community	Project is well thought out and clear in its impact and most other communities could replicate it with no or very minimal coaching
Creativity (How creative or original is this project?)	Project does not bring any new ideas or ways of thinking to the community	Not the most creative project, but it is at least engaging for the community	Project is engaging and interesting. It will attract the community and residents to engage and/or participate, but may be lacking a bit	This project distinguishes itself from others. It is original in nature, innovative, and brings together the community and residents to engage and/or participate
